## Education

---

**Thadomal Shahani Engineering college**

**August. 2019 – July 2023**

*Bachelor of Engineering in Information Technology | CGPA - 9.3*

## Experience

---

**Exposys Data Labs**

**June 2021 – July 2021**

*Web Development Intern*

- Worked with a team on a real time video calling web application for the company.
- Worked with React library for frontend to create responsive UI for the website , also used User Interface npm packages such as Material UI , bootstrap and Materialize CSS
- For backend we used Node.js and Express.js with Socket.IO library which allows to create custom ports and sockets needed for real time communication.
- Explored ways to host the final product on heroku and netlify and figured a way to incorporate CI/CD using Github.

## Projects

---

**DIVSTACK - ONLINE LEARNING PLATFORM | [GITHUB](#)**

- Developed an online learning website to help all the aspiring web developers and current professionals to skill up and learn new skills.
- This was a group project made during a hackathon organised by college.
- The tech stack we used to build this project was React , Node.js and MongoDB.

**THE VOYAGE EXPRESS – TRAVEL BOOKING WEBSITE | [GITHUB](#)**

- The voyage express is an online travel booking websites where users can browse and purchase travel packages to destinations across the world.
- Users can use our exclusive map feature to find out all popular tourist attractions near them.
- The tech stack used was Gatsby , GraphQL , React and Node.

## Technical Skills
